Join Tribune syndicated columnist, syndicated radio host, and host of "Pet Central" on WGN Radio, certified dog and cat behavior consultant, Steve Dale as he trains you how to train and socialize your kitten. The class consists of one 90 minute session and costs \$15. All proceeds from Kitty Kindergarten will go to Tree House! We are also excited to announce that "The Early Show's" Dr. Debbye Turner will be covering the class for CBS News.

Class objectives include:

- To boost Kitty confidence
- To acclimate kittens to carriers and to traveling in cars
- To acclimate kittens to veterinarian exams; strangers
- Litter box 101
- To encourage scratching in the right places and discourage scratching in the wrong places
- Basic diet/feeding/medicating and grooming information
- Play/socialization to others of their own kind and to dogs!
- To demonstrate how to shape behavior

IMPORTANT: Your cat needs a health certificate signed by your veterinarian before being accepted for enrollment (we will send you the certificate when you enroll in the class). Kittens 6 to 15 weeks are eligible to participate. Guardians of older cats can still attend the class (without their cat) as most of the training applies to older cats as well. Children are encouraged to attend but must be supervised by an adult. All kittens should have a brush, leash, harness and they should arrive in a carrier.
